Quelques conseils...

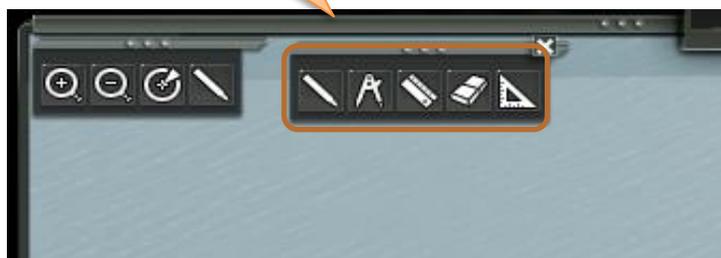

Vérifiez régulièrement vos messages !

(on vous a peut-être invité dans une meute...)

C'est ici que vous pourrez comptabiliser les points XP de votre mission (onglet Notifications)

Tracez les caps des navires

Attention à l'utilisation de la radio ou du radar !

Les navires de guerre vont repérer votre position et vont se précipiter à cet endroit....

Attention à la météo

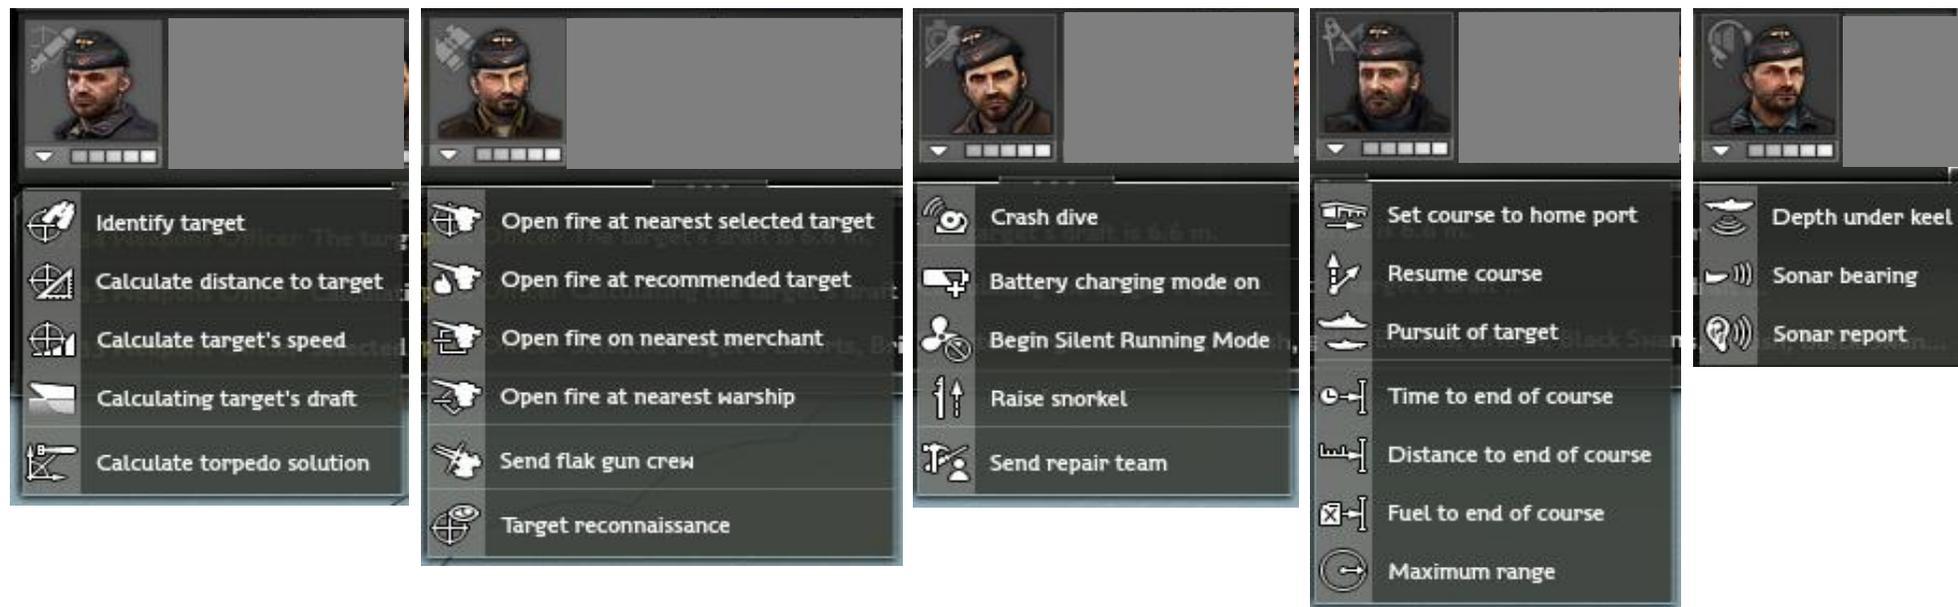

*(le ciel peut redevenir bleu en moins de 15 min de jeu !)
et la zone de détectabilité s'agrandit dangereusement....*

Note:

Il faut avoir les navires en vue pour envoyer un rapport de contact
